Remarks

Claims 5-11 and 15-27 are pending.

Allowable Subject Matter

Claims 5-11 and 15-27 allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior art (Ricciulli, Skirmont, and ND, as used in the rejections in the non-final office action dated 6/12/2007), teaches determining "a physical entry point of the attack via a comparison of logical entry point network information and intrusion information, and does not determine a logical entry point via a correlation engine," therefore, "Ricciulli does not determine a logical entry point of the attack, and does not identify a physical entry point of the attack associated with the logical entry point as set forth in claim 5", as stated by the Board of Patent Appeals and Interferences.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
